

## See your design line-up precisely every time with AccuLine™.

- Stop wasting resources on endless test prints.
- Save time positioning your designs by getting the perfect placement virtually every time.
- Intuitive easy to use software, just drag and drop your designs!
- Minimize your ink waste with less test prints and less misprints.
- Lightweight easy to install camera system.
- Print on a variety of substrates like shoes, bags, caps, & more.
- Full HD, 13 MB pixel camera.

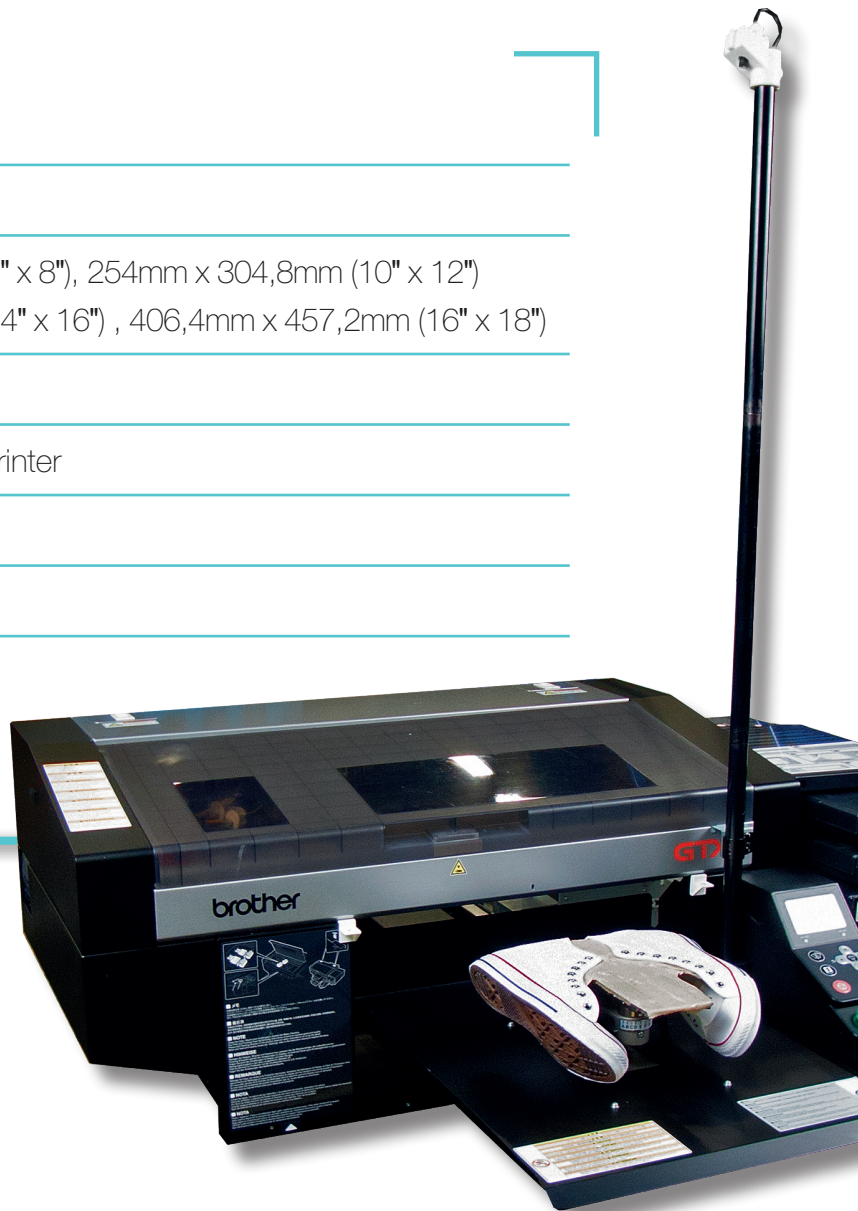

# AccuLine™

VISUAL ALIGNMENT SYSTEM

With AccuLine from Brother, you can see the shirt, hat, shoe, hoodie or whatever you want to print right on your monitor and can adjust your design placement to print exactly where you want it every time. Our sophisticated yet easy-to-use software works with a digital camera to create an alignment system that can save you time and money while improving the quality of your printing.

**You see it. You adjust it.  
You print it. It's just that easy.**
