

INTRODUCING MAXX 2G+ DUAL PRESSURE WITH A TWIST

PRESENTING THE REVOLUTIONARY
DUAL PRESSURE MANUAL HEAT PRESS
THAT ADJUSTS BETWEEN LIGHT
AND FIRM PRESSURE YOU
NEED WITH A SIMPLE TWIST
OF THE WRIST.

“Firm” for curing pretreat and “Light” for curing ink. No more frantic, fiddling with knobs and no more guesswork. Just one simple twist from “Firm” to “Light” does the trick. Made by Hotronix in conjunction with Brother International Corporation, so you know it comes with a host of great features:

- 16" x 20" clamshell heat press with floating heating element
- Patented magnetic auto-open feature prevents over-application
- Dual pressure knob for quick adjustment between light and firm pressure (great for DTG printers)
- Available in 110V and 220V
- Digital temperature and timer
- Stahls' lifetime limited warranty on heating element; 1-year on press, including parts and labor
- Non-stick top and lower fitted platen covers included
- Stahls' Hotronix Blue Ribbon support 24/7
